

Creating Ambulatory Pharmacy Services that are Vital to the Bottom Line

Planned in cooperation with the ASHP Foundation and ASHP Section of Ambulatory Care Practitioners

ACPE Activity Number: 0204-9999-15-021-L04-P

Activity Date: September 1, 2015

Activity Type: Knowledge-based

CE Credits: 1.5 hours (*no partial credit*)

Activity Fee: Free

Accreditation for Pharmacists (and Pharmacy Technicians, if applicable)

The American Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

Target Audience

This continuing pharmacy education activity is designed for pharmacists in the ambulatory care setting.

Activity Overview

As payment models are continuing to evolve in ambulatory care, it is essential that your organization develop a strategy for ambulatory pharmacy services that produce high value. This activity will address changes in the value payment world, the need to improve outcomes and cost measures that matter, opportunities to bring revenue to your organization, and the provision of ambulatory pharmacy services to underserved populations.

Learning Objectives

After participating in this CPE activity, participants should be able to:

- Develop a strategy for ambulatory pharmacy services that produce high value to your organization based on evolving payment models (i.e. improve outcomes that matter and provide efficient services that result in market and financial growth)
- Assess ambulatory pharmacy services (Transitions of Care, Wellness Visits, Chronic Care Management) to maximize pharmacists' contributions to fee for service revenue and shift easily into evolving payment models.
- Describe differences in approach to ambulatory pharmacy services for underserved, low socioeconomic populations served by Federally Qualified Health Centers.

Schedule of Educational Activities

- Evolving payment model strategies for ambulatory pharmacy services
- Assessing evolving payment models for ambulatory pharmacy services
- Different approaches for the underserved, low socioeconomic populations and those served by federally qualified health centers.

Faculty Information

- **Mary Ann Kliethermes, B.S., Pharm.D.**, Vice Chair of Ambulatory Care, Professor, Chicago College of Pharmacy, Midwestern University, Downers Grove, IL
- **Sandra Leal, Pharm.D., MPH**, Vice President for Innovation, SinfoníaRx, Tucson, AZ

- **Betsy Shilliday, Pharm.D., CDE, CPP, BCACP, FASHP**, Director, UNC Advanced Practice Provider Center, Assistant Medical Director, UNC Internal Medicine Clinic, Director, UNC Internal Medicine Enhanced Care Program, Associate Professor of Medicine and Eshelman School of Pharmacy, University of North Carolina, Chapel Hill

Methods and CE Requirements

This live webinar activity consists of faculty slides presentations, active learning activities, discussion, and handouts. Participants must attend the activity in its entirety to get the Attendance Code to claim continuing pharmacy education credit online at ASHP eLearning Portal. Follow the prompts to claim credit within 60 days after the activity, but no later than October 31, 2015.

Per ACPE requirements, CPE credit must be claimed within 60 days of being earned.

System Technical Requirements

System Requirements Courses and learning activities are delivered via your Web browser and Acrobat PDF. Users should have a basic comfort level using a computer and navigating web sites.

View the [minimum technical and system requirements](#) for learning activities.
